Prospects for Canning Factory in Clay City Better Than Expected.

Everybody in Line, and Many Willing to Subscribe Stock

Meeting Held Monday Night.

There was a meeting held at the Police Court room Monday night for the purpose of organizing a canning company. The meeting was attended by E. W. Henry, representative of the manufacturers, who gave out some interesting facts. Every body present was enthused and many expressed a willingness to subscribe stock in the company. Real action will be taken, possibly, next Tuesday when Mr. Henry will be back. He heard of Clay City going to put in the factory and came over from Winchester where he is about to put in a modern creamery. We are all pleased with Mr. Henry and the plan he puts in the many industrial plants.

Everyone able to help should should render the project financial aid for few people realize

the benefit to be derived from the location of a canning factory in their midst. It opens a market for the farmer at which to dispose of a goodly portion of the products of the farm, and gives him a much better market, at higher prices, for what he produces than he has ever before received. And not only this, but it opens up a market for products which the farmer has never before produced for market purposes, and thus places within his reach the possibility of making his farm return a much larger per cent of profit; giving him more for his labor, and a larger competency to be enjoyed in later life.

A canning factory not only helps the farmer, but it helps the small truck grower, the business man, the laborer, and, in fact, every person of the community as well. It supplies the truck grower with a certain, profitable and reliable market for what he produces. Such a factory employs a large amount of labor throughout the greater portion of the year, at good wages, and this opens a larger amount of trade for the business interests of the community. Thus it will readily be seen that a canning factory means more business to all classes and is a decided benefit to any community.

Resolutions of Respect.

Whereas, in His divine wisdom it has pleased the Supreme Ruler of the universe to call from our midst on Nov. 6, 1906 our beloved friend and Brother, D. R. Mountz, to a higher and better life in that Grand Lodge above, Therefore be it resolved:

First—That Red River Lodge No. 70 K. of P. has lost a true and faithful brother, and his family a devoted and loving husband and father.

Second—That the members of this Lodge extend to the widow and family of our deceased brother our heartfelt sympathy in this their sad loss, and that we commend them to the care of Him who doeth all things well.

Third—That a copy of these resolutions be sent to the widow and family and that a copy be sent to the CLAY CITY TIMES for publication and the same be spread on the minutes of the Lodge. LOUIE BRADLEY, }

Admitted to Bail.

Jephtha Walters, was given an examining trial at Lexington Tuesday for the killing of Wm. Hannah in that city last week, an account of which appeared in this paper. His bond was placed at \$2,000 which he promptly gave and was released. The Commonwealth failed to make much of a case against Walters, which shows that the statement of the killing was highly prejudiced against him.

Elder J. H. Johnson has moved to this city from Yale, Bath county, and will engage in active ministerial work from this city.

Every little country village has an ambition to become a trade center and a boom city, with no special natural features or geographical advantages. Under such conditions what is most needed is some enterprise on the part of its local capitalists. They must make the first advance in the uncertain field of development. They must capitalize small factories and see that they are kept employed. When the local business is finally developed and proves to the world that they are successful, then outside enterprises will be sure to step in and enjoy your prosperity with you. Just like a fellow who finds a favorite fishing hole and catches fish, and all the other fishermen who see that he is catching will drop their hooks right by the side of the lucky fisherman. The business men of any town should stop talking and hoping for others to do something for the town. They should get together themselves and prove to the world that they have a money making town. No outsider will want to fish in our swimming hole until we prove that they can catch fish.

Clay City has all along desired natural gas but if it should serve us like it is other places some times, we may feel fortunate for not having it. Last winter Campton suffered a very bad fire from natural gas, as well as the destructive fire there Sunday night. The main pipe line connecting Mt. Sterling, Winchester and Lexington burst last week and left persons using natural gas for heat in those cities shivering in the cold, and we read in the Winchester Democrat this week where a prominent lady of Winchester was severely burned by an explosion of natural gas in the kitchen range. We also have read of numerous other accidents with natural gas.

In his campaign for Governor Attorney General Hays neglected to connect one very important fact to the grave charges he made against his opponent and the boy Governor. He should have shown up the results and grafts of the administration prior to that of Beckham, which would, in a wicked mood, have made the present administration turn green with envy.

Democrats, we notice the sinfulness in our own house the first place, which perhaps is right, but we should not forget to look at the house opposing us when it comes to a choice between them and us. And ninety-nine times out of a hundred our house is ten times cleaner than the other fellows'.

Politics is corrupt in all parties but the party which has

no show, and give the party which may now have no show a chance, and it will become more corrupt than any.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Important Memorandum—The painter of the most expensive house is painting a job with
"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and

for every good reason we know.

There's one indisputable reason why, a reason every honest painter will acknowledge
"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and
pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready
to mix with linseed oil, galles for galles, is KINLOCH PAINT, and we recommend its use

Floods in Western Kentucky.

Hopkinsville was flooded Tuesday by a sudden rise in Little river, resulting from heavy rains, and business houses will suffer a loss of about \$100,000. Three three-story buildings, used as store rooms, collapsed from weakened foundations. The water is now receding. In other parts of the State, heavy rains have swollen streams and caused them to spread over the bottoms washing a good deal of corn and fodder down stream, and causing much damage to roads. Many bridges have been washed away.

Senator Ben Tillman, of South Carolina, is billed to deliver an address at a Chicago opera. The Chicago negroes don't like Mr. Tillman so they have filed a protest with the mayor of the Windy City endeavoring to prohibit the South Carolinian from speaking there.

It is a poor excuse of an old man, if permitted to run loose in town, that cannot make at least one enemy out of a good neighbor.

Penned in a narrow cabin, forty-eight people lost their lives by the collision of two steamers in Seattle harbor.
